

Saúl Francisco Vázquez del Río

Monterrey, Mex – saulvazquez2008@gmail.com – linkedin.com/ saúl-vázquez-del-río/ – +52 8123635387/ Portfolio: <https://portafolio-saul-vazquez.vercel.app/>

SUMMARY OF QUALIFICATIONS

Recent Computer Science graduated from Tecnológico de Monterrey with hands-on experience in full-stack development, data analytics and machine learning. Proven ability to deliver real-world software solutions across multiple tech stacks. Driven by genius curiosity to keep learning and passion for solving real life problems across different technology domains.

EDUCATION

Tecnológico de Monterrey (ITESM) **Monterrey, México | Aug 2021 – Jul 2025**
B.S. in Computer Science and Technology | Minor: Advanced Intelligence for Data Science I & II

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, JavaScript, Arduino, C#, R Studio, TypeScript
- **Front-End Development:** HTML, CSS, Tailwind CSS, React, Vue 3, React Native
- **Frameworks and Libraries:** Node.js, Express.js, FastAPI, Prisma ORM, Pinia, Vite, OpenCV, Antlr, OpenIA
- **Version Control:** Git, GitHub
- **Databases:** PostgreSQL, MongoDB, MySQL, Firebase (Firestore, Realtime Database)
- **Business Intelligence:** Power Bi, Excel
- **Data & ML:** Scikit-Learn, Pandas, NumPy, TensorFlow, PyTorch, Power BI, ETL

RELATED EXPERIENCE

Clarios Monterrey, Mex
Digital Solutions Intern September 2023 – December 2023

- Supported the sales team by resolving digital-related issues and developing technical solutions to streamline their workflow.
- Designed and built a dashboard for the sales team, handling database extraction and the entire ETL process to ensure accurate and timely data delivery.
- Utilized Python to implement robust data pipelines, enabling automated data extraction, transformation, and loading for improved decision-making.

PROJECT EXPERIENCE

Personal Project Monterrey, Mex
Netflix Clone June 2025 – July 2025

- Built a responsive, interactive Netflix clone with trailer playback and multi-profile management, replicating core UX patterns of the original Netflix platform.
- Engineered the complete front-end with Vite, React and Tailwind CSS, delivering a modern, fast and fully responsive experience.
- Designed a well-structured REST API using Node.js, Express.js, and TypeScript for type safety and long-term maintainability.
- Integrated MongoDB with Mongoose for flexible schema modeling and configured CORS for secure API consumption from the React client.

Personal Project Monterrey, Mex
GymApp -Full-Stack Mobile Application October 2025 – December 2025

- Built a cross-platform mobile app for gym routine management supporting Android from a single React Native + Expo codebase for testing.
- Developed a REST API with Node.js handling JWT authentication with role-based access, full CRUD for routines, a catalog of 19 exercises by muscle group, a favorites system, and a session tracking with a progress history.
- Modeled the relational database in PostgreSQL using Prisma ORM for type-safe queries and controlled schema migrations.
- Implemented bcrypt password hashing and used JWT auth designed to scale without a server-side sessions.

Personal Project Monterrey, Mex
AI Chat Assistant – Real-Time Chatbot February 2025 – March 2025

- Developed a functional ChatGPT-style chatbot with real-time response streaming via Server-Sent Events (SSE) supporting multiple simultaneous conversations in a sidebar.
- Built the front-end with Vue 3, Pinia, and Vite – deliberately chosen over React to expand stack versatility and explore the Composition API.
- Integrated the Groq API (Llama 3.3 70B) for high-speed LLM inference, achieving a smooth real-time typing effect.
- Implemented persistent conversation history, full Markdown rendering with syntax-highlighted code blocks, and a dark theme.

LANGUAGES

Spanish – Native | **English** – B2 (Professional working proficiency) | **German** – A1
